Business Analyzed Checking

A commercial operating account that prices transactions at unbundled rates and applies an Earnings Credit Rate on collected balances to offset service fees — the foundation for any Cumulus treasury relationship.

ACCOUNT TYPE	**Commercial demand deposit checking (analyzed)**
MINIMUM OPENING DEPOSIT	**$2,500**
EARNINGS CREDIT RATE (ECR)	**3.50% on net collected balances**
PER-ITEM DEBIT / CREDIT PRICING	**$0.18 debit · $0.22 credit**
DEPOSITED-ITEM PRICING	**$0.14 per item · $0.65 / $100 cash vault**
TREASURY SERVICES	**Required account type for ACH origination, Positive Pay, lockbox**
MONTHLY STATEMENT	**Detailed account analysis statement (AA)**
DEPOSIT INSURANCE	**FDIC-insured up to $250,000 per ownership category**

AT A GLANCE

Overview

Cumulus Business Analyzed Checking is a commercial demand-deposit account designed for mid-market and large corporate clients. Instead of charging a flat monthly fee, the account is priced at the individual service-charge level and each statement cycle is reconciled on a detailed account analysis statement. Collected balances earn an Earnings Credit (at the Earnings Credit Rate, or ECR) which offsets eligible service fees on a dollar-for-dollar basis. Analyzed Checking is the required operating account for clients engaging Cumulus treasury services — ACH origination, Positive Pay, lockbox, wholesale remote deposit capture, and controlled-disbursement.

WHY ANALYZED CHECKING

Key benefits

EARNINGS CREDIT RATE — 3.50%

Earnings Credit Rate — 3.50%

Net collected balances (after a 10% reserve deduction) earn credit at 3.50% annualized. Credit offsets eligible service fees on the same monthly analysis.

UNBUNDLED TRANSACTION PRICING

Unbundled transaction pricing

Every service is priced individually: debits, credits, deposited items, cash vault, ACH, wires, and treasury services are itemized on the analysis statement.

FOUNDATION FOR TREASURY

Foundation for treasury

Required account type for ACH origination, Positive Pay, ACH Services, wholesale lockbox, RDC, Sweep, and Zero-Balance Account structures.

DETAILED ACCOUNT ANALYSIS STATEMENT

Detailed account analysis statement

Monthly AA statement itemizing average collected balance, float, ECR, earnings credit, service charges, and net analysis position. Customizable reporting via BAI2 or ISO 20022 camt.053.

BALANCE COMPENSATION FLEXIBILITY

Balance compensation flexibility

Clients may elect to compensate for services via balances (ECR), fees, or a hybrid arrangement reviewed annually with the Relationship Manager.

INTERCOMPANY AGGREGATION

Intercompany aggregation

Related-party balances may be aggregated under a master analysis group for ECR purposes, subject to appropriate documentation and Regulation D / Regulation W considerations.

MECHANICS

How the Earnings Credit works

Each statement cycle, Cumulus calculates the average collected balance held in the account (average ledger balance less float). A 10% reserve requirement is deducted; the remaining net investable balance is credited at the ECR on a 365-day basis. The resulting earnings credit is applied against eligible service charges billed on the same cycle. If earnings credit exceeds service charges, the surplus does not carry forward to the next cycle (Cumulus offers a Hard-Charge option to bill excess services in cash rather than consume additional balances).

ANALYSIS COMPONENT	CALCULATION
Average ledger balance	Sum of daily ledger balances ÷ days in cycle.
Less: float	Items in collection not yet in available funds (typically 0–2 days for most check items).
= Average collected balance	Basis for ECR calculation.
Less: reserve requirement	10% deduction; remainder is the net investable balance.
× ECR × (days in cycle / 365)	Earnings credit calculated pro rata for the cycle.
Less: total service charges	All eligible itemized charges incurred during the cycle.
= Net analysis position	Positive = covered by balances. Negative = billed in cash.

ECR CALCULATION — WORKED ILLUSTRATION

A client holds a $1,000,000 average collected balance; the 10% reserve leaves $900,000 net investable. At a 3.50% ECR over a 30-day cycle, the earnings credit is approximately $2,589.04. Against $2,200 of itemized service charges that cycle, the net analysis is positive $389.04 (covered by balances — no cash fee).

FEE SCHEDULE

Unbundled transaction pricing

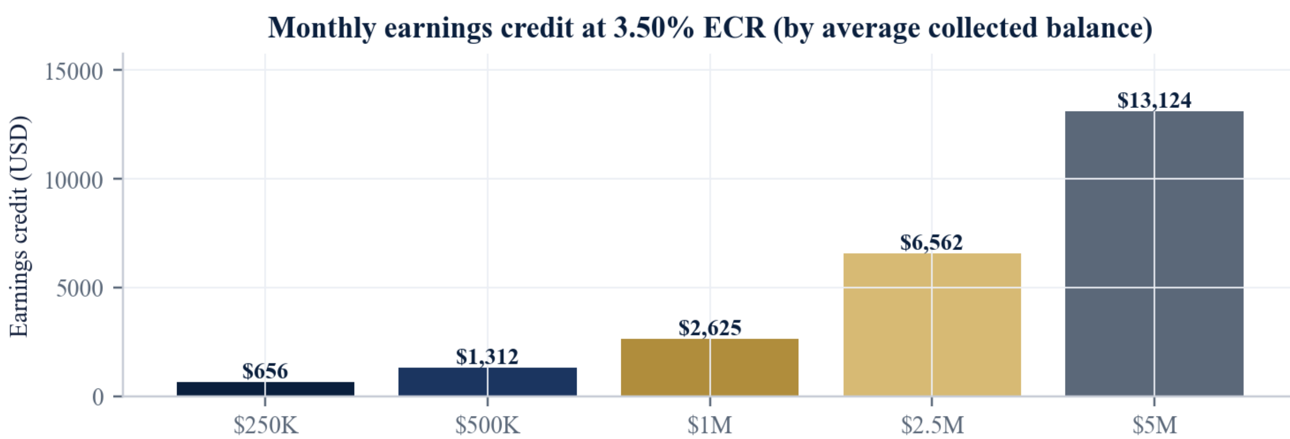
SERVICE	UNIT PRICE	NOTES
Account maintenance	$22 / month	Flat monthly charge; offset by earnings credit.
Posted debit (check paid, ACH debit, wire debit, ATM)	$0.18 / item	
Posted credit (deposit posted, ACH credit received, wire credit)	$0.22 / item	
Deposited item (checks deposited)	$0.14 / item	Includes electronic items from Remote Deposit Capture.
Cash vault deposit	$0.65 / $100	Armored courier / vault credit; same-day credit by cut-off.
Cash order (currency ordered)	$0.85 / $100	Includes standard strap breakdown.
Domestic wire — outgoing	$18 / item	Submit by 5:45 p.m. ET for same-day settlement.
Domestic wire — incoming	No charge	Included.

SERVICE	UNIT PRICE	NOTES
ACH origination — standard	$0.10 / item · $5 / file	Per ACH Origination service; Same-Day surcharge $1.
Positive Pay	$35 / month · $0.05 / item	Check + ACH Positive Pay combined.
Lockbox — wholesale	$1.10 / item · $250 / month setup	B2B lockbox with invoice-matching.
Account analysis statement	No charge	Detailed AA statement included.

EARNINGS CREDIT IMPACT

Illustrative balance-to-fee offset

The chart below illustrates how collected balances translate into monthly earnings credit at the current 3.50% ECR, after the 10% reserve deduction. Treasury services, wires, ACH, and lockbox are frequently covered in full by the earnings credit above the $500,000 balance level.



ACCOUNT OPENING

Eligibility and onboarding

Who qualifies

- — U.S.-organized for-profit and not-for-profit entities with material commercial activity (typically $1M+ annual revenue).
- — Clients engaging one or more treasury services: ACH origination, Positive Pay, lockbox, RDC (wholesale), controlled disbursement, ZBA, or sweep.
- — Middle-market and large corporate relationships with a dedicated Relationship Manager.
- — Public-sector entities (municipalities, authorities, school districts) under appropriate collateralization (e.g., FHLB letter of credit, pledged securities).

Documentation required

- — Formation documents (Articles, Operating Agreement, Bylaws) certified by the Secretary or other duly authorized officer.
- — IRS EIN letter (CP-575 or 147C).
- — Corporate resolution or written consent designating authorized signers and treasury administrators.
- — Beneficial-ownership certification under 31 C.F.R. § 1010.230 for each owner holding 25% or more.
- — Most recent two years of financial statements (CPA-reviewed or audited, where applicable) for underwriting and service limit calibration.
- — Cumulus Treasury Services Master Agreement and applicable service schedules.

HOW IT WORKS

Onboarding process

STEP	WHAT HAPPENS	TYPICAL TIMING
1 · Discovery	Relationship Manager and Treasury Specialist meet to scope transaction profile, cash-flow cycle, and treasury service needs.	Days 1–3
2 · Pro-forma analysis	Cumulus prepares a 12-month pro-forma analysis statement using historical volumes to model fees vs. earnings credit.	Days 3–7
3 · Documentation	Client executes the Treasury Services Master Agreement, service schedules, and applicable security addenda.	Days 7–10
4 · Implementation	Cumulus configures the account, treasury services, reporting formats (BAI2 / camt.053), and entitlements. Test ACH / wire / Positive Pay cycles completed.	Days 10–21
5 · Go live	Production cut-over with Treasury Implementation Specialist on-call. First analysis statement delivered after cycle close.	Days 21–30

PLATFORM CAPABILITIES

Reporting, integrations, and channels

CAPABILITY	DETAILS
Reporting formats	BAI2 (prior-day & intraday), ISO 20022 camt.053 / camt.052, SWIFT MT940 / MT942, CSV, and PDF.

CAPABILITY	DETAILS
ERP / accounting integrations	Direct connectors for Oracle, SAP, Workday, NetSuite, Sage Intacct, Microsoft Dynamics 365, and QuickBooks Enterprise; REST APIs via Cumulus Developer Portal.
Cut-off times (ET)	Domestic wires 5:45 p.m. · International wires 5:00 p.m. · Same-Day ACH 2:45 p.m. · Standard ACH 9:00 p.m. · RDC 10:00 p.m.
Entitlements and dual control	Role-based entitlements, maker-checker / dual-approval, transaction limits by user, channel, and beneficiary; device binding and IP-whitelisting.
Authentication	Multi-factor authentication (hardware token, FIDO2 security key, or mobile authenticator); SSO via SAML 2.0 for enterprise clients.
Contingency	Cumulus Business Online is operated from two geographically dispersed data centers with tier-IV resilience; 99.95% uptime SLA.

SAFEGUARDS

Regulatory and security protections

PROTECTION	COVERAGE
FDIC deposit insurance	Up to $250,000 per depositor, per insured institution, per ownership category. Amounts above the insurance limit are uninsured unless pledged or swept under a collateral arrangement (e.g., ICS, CDARS, repo sweep).
Regulation D / Reg W — affiliate transactions	Transfers between related parties reviewed for 23A / 23B compliance; reserve deduction on ECR calculation applies.
UCC Articles 3, 4, 4A	Commercial payment items and funds transfers governed by UCC; Regulation E does not apply to commercial accounts.
GLBA — information safeguards	Administrative, physical, and technical safeguards consistent with the Interagency Guidelines.
SOC 1 Type II / SOC 2 Type II	Annual independent examinations. Reports available to authenticated clients via the Cumulus Governance portal.
Sanctions & AML	OFAC, FinCEN, and BSA screening on all payments; Suspicious Activity Reports filed as required.

COMMON QUESTIONS

Frequently asked questions

Is Analyzed Checking required to use Cumulus treasury services?

Yes. ACH origination, Positive Pay, wholesale lockbox, wholesale RDC, ZBA structures, and sweep all require a Business Analyzed Checking account. Treasury services may be linked to related-party operating accounts via a master analysis relationship.

Can the Earnings Credit Rate change?

Yes. The ECR is set by Cumulus and is variable; it generally moves in line with short-term market rates. Cumulus provides 30 days' advance notice of rate changes on analyzed relationships. The current rate is published on each monthly analysis statement.

How is float measured?

Float is the time between when an item is deposited and when credited as collected funds. Cumulus uses a published float schedule based on drawee-bank location and item type (on-us, local, non-local). Clients may request a detailed float report at any time.

Can earnings credit be used to pay for non-Cumulus services?

No. Earnings credit may only offset eligible Cumulus service fees itemized on the analysis statement. Surplus credit does not carry forward to subsequent cycles and is not paid as cash.

Are deposits above $250,000 protected?

Deposits in excess of the FDIC limit may be protected through Cumulus ICS (Insured Cash Sweep) or CDARS programs — which distribute balances across a network of FDIC-insured institutions — or by collateralization for qualifying public-sector clients.

Can we aggregate multiple entities under one analysis group?

Yes. Related legal entities may be linked into a Master Analysis Group. Each entity retains its own account and statements, but collected balances across the group are aggregated for ECR and service-charge netting purposes.

DISCLOSURES & REGULATORY NOTICES

Important disclosures

§ Annual Percentage Yield (APY) is accurate as of the effective date shown and assumes interest remains on deposit until maturity (for time deposits) or for 365 days (for liquid accounts). A withdrawal of interest will reduce earnings.

§ Fees may reduce earnings on the account. Variable rates may change at any time at the Bank's discretion, except where a fixed term is stated. Cumulus Bank will provide 30 days' advance written notice of adverse changes to account terms.

§ Deposits are insured by the Federal Deposit Insurance Corporation (FDIC) up to applicable limits ($250,000 per depositor, per insured institution, for each account ownership category).

§ Disclosures are provided pursuant to the Truth in Savings Act (Regulation DD, 12 C.F.R. Part 1030) and the Electronic Fund Transfer Act (Regulation E, 12 C.F.R. Part 1005).

§ Funds availability is governed by Regulation CC (12 C.F.R. Part 229). Large deposits, new-account holds, and redeposited items may be subject to extended availability.

§ The Earnings Credit Rate (ECR) is a non-interest, non-cash credit applied against eligible service charges on the account analysis statement. ECR is not interest income and is not reportable on IRS Form 1099-INT.

§ Service charges, account-analysis calculations, and cut-off times are set forth in the Cumulus Treasury Services Master Agreement and applicable service schedules, which control in the event of a conflict with marketing materials.

§ Account-analysis reserve deduction is set pursuant to 12 C.F.R. Part 204 (Regulation D) as modified by current Federal Reserve Board policy.

§ Cumulus Insured Cash Sweep® (ICS) and CDARS® are deposit placement services operated by IntraFi Network, LLC. Use of ICS or CDARS is subject to the applicable Deposit Placement Agreement.

ENGAGE A SPECIALIST

Connect with a Cumulus commercial banker

A Commercial Relationship Manager will assess your business's banking, credit, and treasury needs, coordinate supporting specialists, and return a term sheet or proposal on an expedited timeline. Existing Cumulus clients should contact their dedicated Relationship Manager directly.
