AT A GLANCE

Overview

Cumulus Managed Advisory Services is a discretionary wrap-fee program offered through Cumulus Investment Services, LLC, an SEC-registered investment adviser. Under the program, a Cumulus investment adviser exercises discretion over the purchase and sale of securities in your account in accordance with a written investment policy statement and the investment objectives, risk tolerance, time horizon, liquidity needs, and tax considerations that you and your advisor establish together. Cumulus acts as a fiduciary in this capacity.

Investment products are not FDIC insured, not bank guaranteed, and may lose value. A copy of Cumulus Investment Services, LLC Form ADV Part 2A (disclosure brochure) and Form CRS will be provided before you enter into an advisory agreement, and annually thereafter.

PROGRAM BENEFITS

Why engage an investment adviser

FIDUCIARY DUTY

Fiduciary duty

As a registered investment adviser, Cumulus owes a duty of loyalty and care and must act in your best interest at all times under the Investment Advisers Act of 1940.

WRITTEN INVESTMENT POLICY

Written investment policy

A personalized investment policy statement documents your objectives, risk tolerance, liquidity needs, time horizon, tax considerations, and any reasonable restrictions.

DISCRETIONARY MANAGEMENT

Discretionary management

Your adviser implements the investment policy without prior approval of each transaction, enabling disciplined rebalancing and timely tax-management trades.

TAX-LOSS HARVESTING

Tax-loss harvesting

In taxable accounts, systematic harvesting of realized losses may be used to offset realized gains, subject to the wash-sale rule (IRC §1091).

REBALANCING AND DRIFT CONTROLS

Rebalancing and drift controls

Portfolios are monitored against target allocations and rebalanced when drift tolerances are exceeded or at scheduled intervals.

ACCESS TO INSTITUTIONAL VEHICLES

Access to institutional vehicles

Mutual-fund institutional share classes, separately managed accounts, and alternative investments (qualified clients) with due-diligence oversight by Cumulus.

COMPENSATION & PRICING

Advisory fee schedule

The annual advisory fee is calculated on a tiered basis against the average daily market value of the assets held in the account during the billing period. Fees are debited from the account in arrears on a calendar-quarter basis. The fee covers investment advice, discretionary management, custody, standard trading, performance reporting, and quarterly reviews; it does not cover internal fund expenses, regulatory pass-throughs, or transfer taxes.

TIER	ASSET RANGE	ANNUAL ADVISORY FEE
Tier 1	First $1,000,000	1.25%
Tier 2	Next $4,000,000 ($1M–$5M)	0.95%
Tier 3	Next $5,000,000 ($5M–$10M)	0.65%
Tier 4	Assets above $10,000,000	0.45%

HOUSEHOLD AGGREGATION

Fees are calculated at the household level. Accounts held by spouses, domestic partners, minor children, and family trusts may be aggregated for purposes of applying the breakpoint tiers, provided an election form is on file. Discuss aggregation with your Cumulus advisor.

SEVEN RISK-BASED STRATEGIES

Model portfolios

Seven model portfolios — from Conservative through Aggressive — are available as starting points. Models may be customized for concentrated positions, tax considerations, ESG preferences, or other reasonable restrictions. The model selected for your account is determined by your investment policy statement.

MODEL	EQUITY	FIXED INCOME	ALTERNATIVES	CASH	TIME HORIZON
Conservative	20%	70%	5%	5%	3–5 yrs
Moderately Conservative	35%	55%	5%	5%	4–6 yrs
Balanced (60/40)	55%	35%	7%	3%	7+ yrs
Moderate Growth	65%	25%	8%	2%	8+ yrs
Growth	75%	15%	8%	2%	10+ yrs
Aggressive Growth	85%	5%	8%	2%	10+ yrs
All Equity	95%	0%	3%	2%	15+ yrs

ASSET ALLOCATION IS NOT A GUARANTEE

Asset allocation and diversification do not ensure a profit or protect against loss in a declining market. Past performance is not a guarantee of future results. Investment products are not FDIC insured, not bank guaranteed, and may lose value.

THE ADVISORY ENGAGEMENT

How the program works

STEP	WHAT HAPPENS	TYPICAL TIMING
1 · Discovery	Your advisor reviews your objectives, time horizon, liquidity needs, risk tolerance, and tax considerations; confirms suitability of the program; and delivers Form ADV Part 2A and Form CRS.	1–2 meetings
2 · Investment policy	A written investment policy statement documents your target allocation, rebalancing tolerances, tax-management instructions, and any reasonable restrictions on specific securities or sectors.	1–5 days
3 · Funding and implementation	Assets are transferred in-kind through ACATS or funded in cash. Your adviser transitions the portfolio to the target allocation, balancing transaction costs against tax impact.	10–30 days
4 · Ongoing management	Your adviser monitors the portfolio, rebalances within tolerance bands, conducts tax-loss harvesting where appropriate, and executes manager due diligence.	Continuous
5 · Reviews and reporting	Quarterly performance reports are delivered with portfolio-level and aggregate returns, benchmark comparisons, and fee disclosures. Annual investment-policy reviews are standard.	Quarterly / annual

COMMON QUESTIONS

Frequently asked questions

What does 'discretion' mean in this program?

Discretion means your adviser is authorized to purchase and sell securities in your account without prior approval of each transaction, in accordance with the written investment policy statement. You retain the right to place reasonable restrictions and to terminate the agreement at any time.

How is tax-loss harvesting implemented?

In taxable accounts, your adviser monitors positions for unrealized losses and may sell and replace them with a similar — but not substantially identical — security to harvest realized losses, subject to the wash-sale rule (IRC §1091). Tax-loss harvesting does not convert ordinary income into capital gains and is not a guarantee of tax savings. Consult your tax professional.

How often is my portfolio rebalanced?

Rebalancing is performed when portfolio drift exceeds the tolerance bands documented in your investment policy statement, or on a scheduled calendar basis — typically semiannual at minimum. Rebalancing transactions are reviewed for tax impact before execution.

May I impose restrictions on securities or sectors?

Yes. Reasonable restrictions — for example, exclusion of a specific issuer because of an employment relationship, or exclusion of a sector for values-based reasons — may be documented in your investment policy statement. An ESG sleeve is available on request.

For illustrative purposes. Cumulus Bank is a fictitious institution.

How are fees calculated and charged?

Fees are calculated on the average daily market value of the account during the billing period and are debited quarterly in arrears. The fee schedule is tiered, so only assets within a given tier bear the applicable rate. Your first invoice will be prorated from the funding date.

How do I terminate the relationship?

Either party may terminate the advisory agreement on written notice. Fees are prorated through the termination date; any unearned pre-paid fees (if applicable) are refunded. Your account may be converted to a self-directed brokerage account or transferred to another custodian through ACATS.

DISCLOSURES & REGULATORY NOTICES

Important disclosures
