HARDWARE	\$0 – \$999 depending on configuration
SOFTWARE SAAS	\$59 – \$299 / month per terminal
PAYMENT ACCEPTANCE	EMV chip + NFC contactless + mobile wallet
FEATURES	BOPIS · loyalty · inventory · appointments
CONNECTIVITY	Wi-Fi · Ethernet · LTE (Go) with offline mode
INTEGRATIONS	Accounting · e-commerce · reservation · KDS
SUPPORT	24/7 phone · remote diagnostics · on-site option

AT A GLANCE

Overview

Cumulus Point-of-Sale Systems are turnkey hardware-and-software platforms that unify payment acceptance, inventory management, customer engagement, and reporting. Three product lines are tailored to merchant size and use case: Cumulus Counter for single-location retail and quick-service; Cumulus Merchant Pro for multi-location enterprise with centralized management; and Cumulus Go for mobile and pop-up scenarios. All systems integrate natively with Cumulus Payment Processing for same-day funding, consolidated reporting, and unified PCI compliance posture.

CHOOSE YOUR CONFIGURATION

Product lines

CUMULUS COUNTER Cumulus Counter Single-location retail, quick-service restaurant, service, and salon. 15-inch touchscreen terminal with integrated printer, cash drawer, and EMV / contactless reader. 20+ peripheral SKUs (barcode scanner, scale, kitchen display, customer display).	CUMULUS MERCHANT PRO Cumulus Merchant Pro Multi-location and enterprise merchants. Central inventory, pricing, and promotion management; role-based permissions; cross-location transfer and BOPIS orchestration; consolidated reporting across 2–500+ terminals.
CUMULUS GO Cumulus Go Mobile and outdoor point of sale. Handheld device with LTE connectivity, offline queue, and integrated EMV / contactless. Ideal for food trucks, outdoor markets, in-home service, events, and pop-up retail.	CUMULUS GATEWAY (E-COMMERCE) Cumulus Gateway (e-commerce) Hosted payment page and server-to-server API for online and in-app commerce. 3-D Secure 2 authentication; tokenization; recurring and subscription billing.
KITCHEN DISPLAY SYSTEM (KDS) Kitchen Display System (KDS) Network-connected kitchen display with course timing, expediting, and station routing. Integrates with Counter and Merchant Pro for restaurant workflow.	CUSTOMER-FACING DISPLAY Customer-Facing Display Secondary screen at the checkout for order review, digital receipts, tip selection, and loyalty enrollment.

Integrations

Accounting and back-office

- QuickBooks Online and Desktop — daily sales, refunds, tax, and fees journaled.
- Xero, Sage Intacct, and NetSuite — GL-level integration with automated reconciliation.
- Microsoft Dynamics 365 Business Central and SAP Business One — enterprise mid-market integrations.
- ADP and Paychex payroll — hours and tip distribution from Counter and Merchant Pro.

E-commerce and operations

- Shopify, WooCommerce, Magento, BigCommerce — unified inventory, BOPIS, and order consolidation.
- OpenTable, Resy, Toast Tables — restaurant reservations with integrated seating and guest profiles.
- Tock, SevenRooms — wholesale prepaid events.
- DoorDash, Uber Eats, Grubhub — menu and order routing with integrated tender type.
- Cumulus Invoicing, ACH, and Wire — for hybrid B2B / B2C accounts receivable.

KEEPING YOU RUNNING

Support and SLAs

TIER	COVERAGE HOURS	FIRST RESPONSE SLA	HARDWARE REPLACEMENT
Standard (included)	24 / 7 phone + web	Phone: < 2 min · Web: < 1 hour	Next-business-day advance replacement
Cumulus Care+ (\$19 / terminal / mo)	24 / 7 with dedicated queue	Phone: < 30 sec · Web: < 15 min	Same-day for orders by 3 p.m. ET
Enterprise	24 / 7 with named technical account manager	Phone: < 30 sec · Web: < 5 min	On-site technician within 4 business hours (select cities)

DEPLOYMENT AND ONBOARDING

Cumulus onboards new merchants in four phases: (1) Pre-site survey and hardware quote; (2) staging and preconfiguration at Cumulus fulfillment center (menu, inventory, tax rules); (3) shipping and on-site installation (optional, \$499 per site); (4) live-day support with floor-walker and 72-hour post-launch check-in. Typical deployment: 10–15 business days for Counter; 4–8 weeks for Merchant Pro multi-location rollout.

COMMON QUESTIONS

Frequently asked questions

Can I use Cumulus POS with a non-Cumulus processor?

No. Cumulus POS terminals are certified to Cumulus Payment Processing exclusively, which enables same-day funding, consolidated reporting, and unified PCI posture. If you are currently with another processor, a transition can usually complete in 5–10 business days with no terminal downtime.

What happens if my internet goes down?

All Cumulus POS terminals support offline mode for in-person payments. Transactions are queued locally and submitted automatically when connectivity is restored. Offline authorization is available for card-present transactions up to a configurable floor limit (default \$100); transactions above the limit require online authorization.

Can I use my existing POS hardware?

In most cases, yes. Cumulus supports a broad list of third-party hardware: Ingenico, Verifone, PAX, Clover Go, and Square Terminal. Verified Hardware Partner program lists all compatible devices with the required firmware and P2PE certification level.

Does Cumulus POS handle tips?

Yes. Tip entry is configurable: suggested tip percentages, custom tip, no-tip opt-out, and post-authorization adjustment (for service industries). Tips can be pooled or distributed by employee; tip reports integrate with payroll.

How do BOPIS and curbside pickup work?

Merchant Pro and Counter (with e-commerce integration) support BOPIS: orders placed online appear in a pickup queue at the selected location; staff pick, stage, and notify the customer for pickup. Curbside adds an arrival notification and vehicle-description intake.

What contract term is required?

Cumulus POS is month-to-month for software. Hardware is purchased outright (no financing required) or financed separately through Cumulus Equipment Leasing on 36-month terms. Month-to-month software may be cancelled with 30 days' notice.

DISCLOSURES & REGULATORY NOTICES

Important disclosures

§ Point-of-sale hardware, software, and related services are provided by Cumulus Merchant Services under the POS Services Agreement, which incorporates by reference the Cumulus Merchant Services Agreement and applicable payment-network rules.

§ Hardware warranty is provided by the manufacturer through a 24-month standard coverage period; Cumulus Care+ extends coverage to 36 months and adds advance-replacement logistics.

§ SaaS software subscription fees are billed monthly in advance. Merchants may downgrade or cancel subject to the notice period set in the POS Services Agreement; refunds are not offered on prepaid subscription fees.

§ PCI DSS 4.0 compliance is a shared responsibility; Cumulus provides PCI-validated hardware and P2PE, but merchants remain responsible for cardholder-data environment controls outside the certified POS boundary.

§ Third-party integrations are provided by independent software vendors under their respective licenses and terms of service. Cumulus is not responsible for the functionality, availability, or security of third-party services; integrations may be discontinued if the partner ceases to support required APIs.

§ Advertised hardware prices apply when purchased alongside a minimum 12-month software subscription. Hardware-only sales, without a Cumulus Payment Processing merchant agreement, are not supported.

§ Installation, on-site service, staging, and advanced configuration services are priced separately and described in the POS Implementation Statement of Work signed at the time of order.

ENGAGE A SPECIALIST

Connect with a Cumulus commercial banker

A Commercial Relationship Manager will assess your business's banking, credit, and treasury needs, coordinate supporting specialists, and return a term sheet or proposal on an expedited timeline. Existing Cumulus clients should contact their dedicated Relationship Manager directly.
