ACH Origination

Next-day and Same-Day ACH origination for payroll, vendor payments, tax, and collections — with industry-standard SEC codes, file-level controls, and direct integration to Cumulus Business Online and corporate ERPs.

SERVICE TYPE	Credit and debit ACH origination (ODFI services)
SETTLEMENT OPTIONS	Standard next-day · Same-Day ACH
SEC CODES SUPPORTED	CCD · PPD · WEB · TEL · CTX
DEFAULT FILE LIMIT	\$25,000,000 per day
PER-ITEM PRICING	\$0.08 – \$0.15 depending on volume
PER-FILE PRICING	\$5 per file
SAME-DAY SURCHARGE	\$1 per Same-Day ACH item
CUT-OFF TIMES (ET)	Same-Day 2:45 p.m. · Standard 9:00 p.m.

AT A GLANCE

Overview

Cumulus ACH Origination enables commercial clients to initiate electronic credits and debits through the Automated Clearing House (ACH) network — governed by the Nacha Operating Rules — for payroll, vendor payments, tax, child-support disbursements, distributions, and receivables collection. Cumulus serves as the Originating Depository Financial Institution (ODFI), submitting files to the ACH Operator (Federal Reserve FedACH or The Clearing House EPN) for clearing and settlement to the receiving banks. Originators may transmit files through Cumulus Business Online (manual upload or drag-and-drop), a direct-transmission SFTP channel, or a REST API. Each entry is assigned the appropriate Standard Entry Class (SEC) code based on authorization type and origination channel.

WHY ACH

Key benefits

COST-EFFECTIVE PAYMENTS Cost-effective payments ACH delivers payroll and vendor payments at a small fraction of wire cost — \$0.08 – \$0.15 per item, plus a nominal per-file fee, with no FX or same-day funding pressure.	SAME-DAY ACH FOR URGENT PAYMENTS Same-Day ACH for urgent payments Three Same-Day settlement windows per business day enable intraday payroll corrections, urgent vendor disbursement, and last-minute tax payments up to \$1,000,000 per entry.
FULL SEC CODE COVERAGE Full SEC code coverage CCD (corporate credit/debit), PPD (consumer periodic), WEB (internet-authorized consumer debit), TEL (telephone-authorized), and CTX (corporate with addenda) — one channel covers every commercial use case.	FILE-LEVEL CONTROLS File-level controls Dual-approval, file limits, effective-date restrictions, and IP-whitelisting on file submission. Full audit trail via Business Online and API webhooks.
ERP INTEGRATION ERP integration Direct connectors for SAP, Oracle, Workday, NetSuite, and Microsoft Dynamics; SFTP and REST for custom systems. ISO 20022 pain.001 support in addition to Nacha file format.	ORIGINATION-TO-SETTLEMENT REPORTING Origination-to-settlement reporting Real-time file status, return/NOC monitoring, and settlement reporting with BAI2 / camt.053 output to your ERP.

COVERAGE

Standard Entry Class (SEC) codes

SEC CODE	USE CASE	AUTHORIZATION	TYPICAL USE
CCD · Corporate Credit or Debit	Corporate-to-corporate transactions	Trading-partner agreement	Vendor payments, cash concentration, intercompany
PPD · Prearranged Payment and Deposit	Recurring credits / debits to consumer accounts	Written authorization from consumer	Payroll direct deposit, recurring consumer billing
WEB · Internet-initiated Entry	Consumer debits authorized via the internet	Online agreement (signature or 'I Agree' click)	Online billers, recurring web subscriptions
TEL · Telephone-initiated Entry	Consumer debits authorized by telephone	Recorded phone authorization	Call-center billers, one-time phone payments
CTX · Corporate Trade Exchange	Corporate-to-corporate with detailed remittance	Trading-partner agreement	B2B invoicing with EDI 820 remittance detail
IAT · International ACH Transaction	Entries across U.S. border	Bi-national authorization + OFAC screening	Cross-border payroll, supplier payments

SCHEDULE OF CHARGES

Pricing and limits

ITEM	AMOUNT	NOTES
Origination — standard volume (< 5K / month)	\$0.15 / item	
Origination — medium volume (5K–25K / month)	\$0.12 / item	
Origination — high volume (> 25K / month)	\$0.08 – \$0.10 / item	Negotiated at term sheet
File transmission fee	\$5 / file	
Same-Day ACH surcharge	\$1 / item	Applied above standard origination price
Return / NOC receipt	\$2 / item	ACH returns and Notification of Change items
Reversal request	\$25 / item	Submitted per Nacha Rule reversal criteria
Stop-payment on originated entry	\$30 / item	
File upload limit — default	\$25,000,000 / day	Higher by relationship review; credit approval required
Per-entry limit — Same-Day	\$1,000,000 per entry	Nacha rule maximum

ITEM	AMOUNT	NOTES
Originator setup fee	\$250 / application	One-time, waivable for Cumulus Business Analyzed Checking clients

OPERATIONAL CALENDAR

Cut-off times and settlement

WINDOW	CUT-OFF (ET)	SETTLEMENT
Standard ACH — submission	9:00 p.m. business day	Next business day
Same-Day ACH — first settlement	10:30 a.m. business day	1:00 p.m. same day
Same-Day ACH — second settlement	2:45 p.m. business day	5:00 p.m. same day
Same-Day ACH — third settlement	4:45 p.m. business day	6:00 p.m. same day
Return / NOC processing	Per RDFI schedule	Typically next business day
International ACH (IAT)	3:00 p.m. business day	2 business days

SAME-DAY ACH WINDOWS

Nacha operates three Same-Day ACH settlement windows each business day. Files submitted before the 10:30 a.m. cut-off settle at 1:00 p.m.; files by 2:45 p.m. settle at 5:00 p.m.; files by 4:45 p.m. settle at 6:00 p.m. Per-entry maximum is \$1,000,000; no aggregate daily cap under Nacha Rules beyond your Cumulus file limit.

RISK MANAGEMENT

Security and controls

- **Dual-control / maker-checker** — one user creates and releases; a separate user with segregated credentials approves before transmission.
- **File limits** — hard-enforced file-level and per-item limits configured at onboarding; changes require written amendment.
- **IP-whitelisting** — file submission restricted to pre-registered IP ranges for SFTP and API channels.
- **Callback verification** — Cumulus Risk Operations calls back on anomalous files (first transmission, new SEC code, files materially above recent volume patterns).
- **Prenotification (prenote)** — zero-dollar verification entries for new receiver accounts, required before first live credit on consumer accounts.
- **WEB Account Validation** — for WEB debits, Cumulus validates receiver account status prior to origination, satisfying Nacha's commercially reasonable fraudulent-transaction-detection requirement.
- **Return-rate monitoring** — unauthorized, administrative, and overall return-rate monitoring with threshold alerts at Nacha warning and violation levels.

HOW IT WORKS

Onboarding and implementation

STEP	ACTIVITY	TIMING
1 · Credit review	Cumulus Credit reviews originator against ACH exposure limits and establishes file / daily limits.	Days 1–5
2 · Agreement	Execute ACH Origination Agreement (Service Schedule under Treasury Master Agreement); confirm SEC code authorization and originator policies.	Days 5–10
3 · Configuration	Entitlements, approvers, limits, IP-whitelisting, and transmission channel (Business Online, SFTP, or API) configured.	Days 10–15
4 · Prenote and test	Test-file validation against Cumulus test environment; prenote entries to verify receiver account validity.	Days 15–20
5 · Live origination	First live file; Cumulus monitors closely for first 30 days with Risk Operations review.	Day 20+

COMMON QUESTIONS

Frequently asked questions

When should I use Same-Day ACH vs. standard next-day?

Use Same-Day for time-critical payments where wire-transfer cost is prohibitive and next-day ACH is too slow: last-minute payroll corrections, emergency vendor pay-downs, urgent tax obligations. Use standard next-day for regular payroll and planned disbursements where the cost-savings of standard ACH are material.

What are the return-rate thresholds?

Nacha Rules set three return-rate thresholds: unauthorized returns $\leq 0.5\%$ (inquiry at 0.5%, violation at 1.0%); administrative returns $\leq 3.0\%$; and overall return rate $\leq 15\%$. Exceeding thresholds triggers remediation requirements and may result in fines or origination suspension.

What happens when an ACH entry is returned?

Return entries arrive back at Cumulus within 1–2 business days (consumer unauthorized returns may arrive within 60 days). Cumulus posts the return to your account and notifies you via Business Online / API. Returns reverse the underlying credit or debit; you remain responsible for follow-up collection.

How does prenotification work?

A prenotification (prenote) is a zero-dollar entry sent to verify receiver account existence and type. Nacha Rules require prenotes for consumer PPD credits (optional but recommended); they are mandatory for many government benefit payments. Prenote return windows are 3 business days before live entry is permitted.

Is reversal possible after a file transmits?

Yes, under specific Nacha Rule criteria: duplicate file, wrong dollar amount, wrong receiver, or wrong effective date. Reversals must be submitted within 5 business days of original effective date and clearly labeled. Submit reversal requests through Cumulus Business Online or Risk Operations.

Can we originate IAT (international) ACH?

Yes. IAT supports international credits and debits with enhanced data requirements (OFAC screening, travel-rule data). IAT is subject to additional compliance review; setup typically requires 30 days including OFAC policy review and BSA / AML documentation.

DISCLOSURES & REGULATORY NOTICES

Important disclosures

§ ACH origination services are provided by Cumulus Bank, N.A. (the Originating Depository Financial Institution, or ODFI) under the Cumulus Treasury Services Master Agreement and applicable service schedule, subject to the National Automated Clearing House Association (Nacha) Operating Rules, 31 C.F.R. Part 210 (federal government payments), and Regulation E (for consumer entries).

§ Originators are responsible for obtaining and retaining proper authorizations for each entry transmitted, adhering to return-rate thresholds (unauthorized, administrative, and overall), and complying with Nacha Rules including the Commercially Reasonable Fraudulent Transaction Detection Rule and WEB Account Validation.

§ ACH entries are governed by the receiving institution's funds-availability practices; funds may not be available to the receiver on the settlement date. Same-Day ACH is subject to Nacha cut-off times and receiving-bank processing. All entries are subject to reversal under Nacha Rule provisions.

§ UCC Article 4A governs commercial credit entries. Cumulus Bank is not responsible for delays, errors, or non-settlement caused by receiving depository financial institutions (RDFIs), the ACH Operator, or circumstances beyond the Bank's control.

ENGAGE A SPECIALIST

Connect with a Cumulus commercial banker

A Commercial Relationship Manager will assess your business's banking, credit, and treasury needs, coordinate supporting specialists, and return a term sheet or proposal on an expedited timeline. Existing Cumulus clients should contact their dedicated Relationship Manager directly.
