Lockbox Services

Retail (scannable-coupon) and wholesale (B2B invoice-match) lockbox processing with same-day imaging, data capture, and ERP integration to Oracle, SAP, NetSuite, and Sage Intacct.

LOCKBOX TYPES	Retail (scan coupon) · Wholesale (invoice-match)
SETUP	\$250 / month setup
PER-ITEM PRICING	\$0.45 retail · \$1.10 wholesale
PROCESSING	Same-day imaging and data capture
ERP INTEGRATION	Oracle · SAP · NetSuite · Sage Intacct
CUT-OFF (ET)	Multiple daily pickups; 4:00 p.m. same-day credit
REMITTANCE IMAGES	Check + invoice coupon, retained 7–10 years
REPORTING	BAI2 · camt.053 · XML · CSV · webhooks

AT A GLANCE

Overview

Cumulus Lockbox Services consolidate accounts-receivable check collection at a dedicated Cumulus remittance-processing post-office box. Incoming mail is retrieved multiple times per day, opened and imaged, items are deposited to the client's Cumulus operating account, and structured remittance data is transmitted to the client's ERP for cash application. Two service tiers match use case: Retail Lockbox for high-volume, consumer-billing use cases (coupons scanned directly); Wholesale Lockbox for B2B with varied remittance documents, invoice matching, and OCR-driven cash application. Both tiers deliver same-day deposit credit, accelerate cash-flow, and eliminate the operational cost of centralized mail handling.

WHY LOCKBOX

Key benefits

ACCELERATION OF COLLECTIONS Acceleration of collections Multiple daily pickups and same-day deposit credit accelerate cash-flow by 1–3 days compared to internal mail processing.	AUTO-CASH-APPLICATION Auto-cash-application Wholesale Lockbox OCR reads invoice number, customer number, and remit amount; matches against open-invoice file; delivers pre-applied remittance to ERP for one-step cash application.
REDUCED AP / AR OPERATING COST Reduced AP / AR operating cost Eliminate internal mail-opening, data-entry, and deposit-preparation functions. Staff redeployed to higher-value receivables work (collections, dispute resolution).	IMAGE-BASED EXCEPTION MANAGEMENT Image-based exception management Every item imaged; exceptions (misapplied payments, short payments, unidentified remittance) delivered with images to the AR team for resolution.
ERP INTEGRATION ERP integration Direct integration with Oracle ERP Cloud, SAP S/4HANA, Oracle NetSuite, Sage Intacct, Microsoft Dynamics 365, and QuickBooks Enterprise.	RETENTION AND AUDIT Retention and audit 7–10 year retention of imaged remittance documents; image retrieval via Business Online or API; SOC 1 / SOC 2 audited operations center.

CHOOSE YOUR STRUCTURE

Retail vs. Wholesale lockbox

CHARACTERISTIC	RETAIL LOCKBOX	WHOLESALE LOCKBOX
Use case	High-volume consumer billing (utilities, insurance, healthcare, subscription)	B2B A/R — varied invoices, cut checks, written / emailed remittance
Typical volume	500 – 50,000 items per month	50 – 5,000 items per month
Remittance format	Pre-printed scannable coupon with MICR-readable billing data	Varied: invoice stubs, statements, email notices, check memos
Matching method	MICR + OCR of scan line; 98%+ auto-match with quality coupons	OCR of invoice numbers + fuzzy match against open-invoice file; 70–90% auto-match
Exception handling	Unmatched items routed to a small-volume exception queue	Unmatched or short-paid items sent to client AR team with images
Per-item price	\$0.45 per item	\$1.10 per item
Setup fee	\$250 / month	\$250 / month
Cut-off for same-day credit	4:00 p.m. ET	3:00 p.m. ET

FEE SCHEDULE

Pricing details

ITEM	RETAIL	WHOLESALE
Monthly setup / platform	\$250 / month	\$250 / month
Per item processed	\$0.45	\$1.10
Exception handling	\$1.50 / exception	\$3.50 / exception
Data file delivery (BAI2 / camt.053)	Included	Included
Image file delivery	Included (with 7-year retention)	Included (with 10-year retention)
PO Box rental (Cumulus-arranged)	Included	Included
Invoice-file upload (Wholesale)	—	Included
OCR tuning / field configuration	—	\$500 one-time per field
On-demand image retrieval	\$2 / image	\$2 / image
Armored-courier pickup	At client arrangement	At client arrangement

COST VS. MATCH-RATE

Volume economics — Wholesale

The chart below illustrates per-item cost across monthly Wholesale Lockbox volumes, inclusive of platform + per-item fees. Volume pricing kicks in above 1,000 items per month.

Wholesale Lockbox — all-in monthly cost per item

HOW ITEMS FLOW

Daily processing workflow

STEP	ACTIVITY	TIMING
1 · Mail arrival	Incoming mail addressed to the Cumulus lockbox PO box collected multiple times per day by USPS and processed at Cumulus Remittance Processing.	Continuous
2 · Opening	Automated mail-opening with scan of envelope; items extracted and sequenced.	Real-time
3 · Imaging	Check, coupon / remittance stub, and envelope imaged at 200+ DPI; MICR line captured; OCR performed on coupon / invoice reference.	Real-time
4 · Matching	Retail: auto-apply to customer account by MICR scan line. Wholesale: OCR invoice-number match against open-invoice file; fuzzy match fallback.	Real-time
5 · Deposit	Matched items posted to client operating account. Exceptions queued with images for client resolution.	Same-day ledger credit
6 · Data delivery	BAI2 or camt.053 remittance file transmitted to client via SFTP, API, or ERP integration. Webhooks for real-time posting.	Multiple daily deliveries
7 · Image retention	Images retained in searchable archive for 7 (retail) or 10 (wholesale) years.	Ongoing

CASH APPLICATION

ERP integrations

- **Oracle ERP Cloud / E-Business Suite** — BAI2 + Remittance Advice import, matched to Receivables open invoices.
- **SAP S/4HANA / ECC** — camt.053 bank statement + BAI2 options; automatic lockbox processing (transaction code FLB1N).
- **Oracle NetSuite** — SuiteApp integration for auto-application and exception handling.
- **Sage Intacct** — Intacct bank-rules integration for auto-match and auto-post.

- **Microsoft Dynamics 365 F&O; / Business Central** — electronic payments import.
- **QuickBooks Enterprise** — CSV or direct integration via Intuit Developer Network.
- **Custom ERP** — BAI2, ISO 20022 camt.053, XML, or CSV delivered via SFTP, REST API, or webhook.

COMMON QUESTIONS

Frequently asked questions

Retail vs. Wholesale — which fits my business?

If your receivables come as high-volume consumer billing with pre-printed scannable coupons (utility, insurance, healthcare, subscription), Retail Lockbox is the right fit at 3–5× lower per-item cost. If your receivables are B2B with varied remittance documents, short payments, and invoice matching, Wholesale Lockbox is appropriate despite the higher per-item cost — auto-cash-application savings quickly offset the premium.

How does auto-cash-application work?

Client uploads an open-invoice file (customer ID, invoice number, amount, due date) to Cumulus daily. When a remittance arrives, OCR extracts the invoice reference from the coupon or stub; Cumulus matches against the open-invoice file using exact and fuzzy-match logic; matched payments are pre-applied in the data file delivered to ERP. Typical match rates: 95%+ retail, 70–90% wholesale.

What happens with short payments?

Short-paid items (remittance less than invoice) are flagged as exceptions with both coupon and check images. The exception file is delivered to your AR team for decisioning — apply as partial, apply with dispute code, or return for investigation. Cumulus does not auto-resolve short payments.

How long are images retained?

Retail Lockbox: 7 years. Wholesale Lockbox: 10 years. Images are stored in a SOC-audited archive with full-text searchable OCR content. Retrieval is available via Business Online or API at \$2 per image for on-demand historic retrieval.

Can I change the PO box location for tax / nexus reasons?

Yes. Cumulus operates multiple remittance-processing centers across the U.S. Selecting a lockbox in a strategic jurisdiction — typically one where your customers are concentrated — reduces mail-float days and improves collection acceleration. Nexus considerations should be reviewed with tax counsel.

Can checks be endorsed by Cumulus?

Yes. Cumulus applies the client's deposit-endorsement stamp on every processed item. For restricted endorsements ('For deposit only to Account #####'), Cumulus uses an indorsement specified by the client in the service schedule.

DISCLOSURES & REGULATORY NOTICES

Important disclosures

- § Lockbox services are provided by Cumulus Bank, N.A. under the Treasury Services Master Agreement and applicable service schedule. Processing is performed at Cumulus Remittance Processing Centers operated to SOC 1 Type II and SOC 2 Type II standards with annual independent audits.
- § Same-day ledger credit is available on items received at the lockbox post-office box prior to the service cut-off. Float, image availability, and data-file delivery are governed by the service schedule.
- § Invoice-match and auto-cash-application rely on OCR and exception handling; match rates depend on remittance-document quality. Clients should provide invoice-coupon specifications to maximize automated match performance.
- § Retention of imaged remittance documents is per the service schedule — typically 7 years for retail lockbox, 10 years for wholesale. Original paper items are retained for a shorter period and securely destroyed per Cumulus policy.

ENGAGE A SPECIALIST

Connect with a Cumulus commercial banker

A Commercial Relationship Manager will assess your business's banking, credit, and treasury needs, coordinate supporting specialists, and return a term sheet or proposal on an expedited timeline. Existing Cumulus clients should contact their dedicated Relationship Manager directly.
