Purchasing Cards

Visa® Purchasing cards with Level-3 data capture, ghost cards, and single-use accounts for AP automation — delivering rebate economics up to 1.35% on qualifying spend with strong DSO.

CARD PRODUCT	Visa® Purchasing with Level-3 data
REBATE CEILING	Up to 1.35% for \$10M+ annual spend + short DSO
LEVEL-3 DATA FIELDS	Line-item, tax, shipping, PO, customer code
ACCOUNT TYPES	Physical cards · single-use · ghost cards
CONTROLS	MCC · velocity · single-transaction
PAYMENT TERMS	25-day statement · net-5 payment (default)
AP INTEGRATION	Coupa · Ariba · Oracle · SAP · Workday
SUPPLIER ENABLEMENT	Included program with ~60–180 day onboarding

AT A GLANCE

Overview

Cumulus Purchasing Cards are a B2B payment product designed specifically for AP transformation. Unlike T&E; corporate cards, Purchasing Cards are optimized for vendor and supplier spend: they capture Level-3 data (line-item detail, tax, shipping, customer code, product code), which qualifies transactions for lower interchange — reducing the cost side for suppliers accepting cards and enabling Cumulus to rebate more of the interchange back to the corporate client. Purchasing-card programs pair physical cards (where needed) with ghost cards (departmental) and single-use accounts (AP-platform-issued) to cover the full spectrum of procurement workflow.

WHY CUMULUS PURCHASING

Key benefits

REBATE ECONOMICS Rebate economics Rebates up to 1.35% on qualifying spend with strong DSO. Meaningful economic contribution to the AP function — often offsetting program operating cost 3x or more.	LEVEL-3 DATA FOR COMPLIANCE Level-3 data for compliance Line-item, tax, shipping, PO, and customer code captured at the point of sale. Substantially improves reconciliation, sales / use-tax computation, and audit trail.
AP-PLATFORM INTEGRATION AP-platform integration Direct integration with Coupa, Ariba, Oracle Procurement, SAP Ariba, Workday Procurement, and JAGGAER. VCAs issued by the AP platform from the Purchasing card BIN.	SUPPLIER ENABLEMENT SERVICE Supplier enablement service Cumulus Supplier Enablement outreach — phone, email, and campaign workflow — to onboard your top suppliers into card acceptance, with Level-3 compliance coaching.
GHOST CARDS FOR DEPARTMENTS Ghost cards for departments Single card number shared among a department's authorized purchasers with cost-center tagging and merchant controls. Ideal for marketing, facilities, and IT procurement.	REPORTING FOR AP Reporting for AP Transaction-level export to ERP with Level-3 data; audit-ready invoices; and Procurement-Intelligence reporting that surfaces maverick spend and supplier consolidation opportunities.

WHAT'S INCLUDED

Level-3 data capture

DATA LEVEL	FIELDS CAPTURED	IMPLICATION
Level 1 (standard consumer)	Merchant name, amount, date, authorization code	Highest interchange; typical consumer card
Level 2 (commercial)	Level 1 + tax amount, customer code (user-supplied)	Reduced interchange on qualifying commercial transactions
Level 3 (enterprise)	Level 2 + line-item detail (SKU, description, quantity, unit of measure, unit price, line total, tax per line), shipping / freight, destination country / postal code, duty amount	Lowest commercial interchange; full audit trail

WHY LEVEL-3 MATTERS

Level-3 data capture qualifies transactions for the lowest commercial interchange — reducing supplier cost of card acceptance and increasing supplier willingness to accept cards for invoice payment. For the corporate buyer, Level-3 delivers clean data for AP reconciliation, sales / use-tax compliance, and procurement analytics.

PROGRAM ECONOMICS

Rebate schedule

Rebates are tiered against annual billed spend, Days Sales Outstanding (DSO) from statement close to payment receipt, and the percentage of spend captured at Level 3. Strong DSO and Level-3 capture lift base rebate into the premium tier.

ANNUAL SPEND TIER	BASE REBATE (30-DAY DSO)	PREMIUM (15-DAY DSO)	TOP TIER (5-DAY DSO + LEVEL-3 80%+)
\$1M – \$3M	0.85%	0.95%	1.05%
\$3M – \$10M	1.00%	1.15%	1.25%
\$10M – \$25M	1.10%	1.22%	1.32%
\$25M+	1.15%	1.25%	1.35%

ANNUAL SAVINGS

Rebate impact — \$10M program

The chart below illustrates annualized rebate at different DSO and Level-3 capture combinations for a \$10 million annual Purchasing Card program.

COVERAGE

Account types

ACCOUNT TYPE	USE CASE	ISSUANCE
Physical card	Field purchases, cardholders who need physical tender	Embossed card, NFC contactless, EMV chip
Ghost card	Departmental procurement (marketing, IT, facilities)	Single card number shared among authorized purchasers
Single-Use Account (SUA / VCA)	AP invoice payments	Issued on demand via AP platform or Cumulus Gateway API
Lodged account (travel)	Corporate travel via booking tool	Stored with Concur, Amex GBT, CWT, BCD
Fleet account	Fuel and maintenance	EMV chip with fleet controls

UNLOCKING CARD ACCEPTANCE

Supplier enablement

- **Supplier segmentation** — Cumulus analyzes your supplier base and identifies candidates by annual spend, invoice count, and industry card-acceptance propensity.
- **Campaign design** — phone, email, and web-portal campaigns tailored to the supplier segment (mid-market vs. enterprise vs. strategic).
- **Technical enablement** — Level-3 interchange coaching, gateway configuration, and test-transaction validation with each enrolled supplier.
- **Terms alignment** — negotiation support where suppliers seek to pass card-acceptance costs via a surcharge; Cumulus can help reframe card payment as a discount-based AP-optimization play.
- **Ongoing penetration** — quarterly penetration reports tracking new enrollments, active payment cards, and unlocked spend; on-going campaigns for new suppliers added to your AP master.

HOW IT WORKS

Implementation timeline

PHASE	ACTIVITY	TIMING
1 · Discovery and design	Program objectives, target spend categories, policy alignment, supplier-base analysis.	Weeks 1–3
2 · Agreement and credit	Commercial Card Program Agreement, credit review, liability framework, rebate schedule.	Weeks 3–6
3 · Configuration	BINs, controls, ERP / AP-platform integration, user provisioning, reporting setup.	Weeks 6–10
4 · Pilot	Physical cards and VCAs issued to a pilot cohort (10–50 cardholders). Initial supplier enablement wave.	Weeks 10–14
5 · Roll-out	Program-wide card issuance, supplier enablement campaigns, and transition from check / ACH to card for target suppliers.	Weeks 14–26
6 · Optimization	Quarterly business reviews: rebate realization, DSO, Level-3 capture, supplier penetration, and program enhancements.	Ongoing

COMMON QUESTIONS

Frequently asked questions

Purchasing card vs. corporate T&E; card — which do I need?

A Corporate T&E; program covers employee travel and entertainment spend; a Purchasing program covers supplier and vendor payments. Most enterprises run both in parallel. The key differentiator of Purchasing is Level-3 data capture and AP-platform integration, which T&E; programs do not require.

How do I achieve the top rebate tier?

The top rebate tier combines \$25M+ annual spend, 5-day DSO (pay within 5 days of statement close), and 80%+ of transactions captured at Level 3. Programs focused on supplier enablement and AP-platform integration typically achieve Level-3 capture rates above 60% within 18 months of launch.

Can suppliers refuse card acceptance?

Yes. Supplier acceptance is voluntary and may carry merchant discount costs that suppliers weigh against payment speed and working-capital benefits. The Cumulus Supplier Enablement program converts roughly 30–50% of targeted suppliers to card acceptance within the first 12 months — a figure that depends on industry, supplier size, and your willingness to negotiate AP terms.

Does Purchasing work with my AP system?

Yes — Cumulus is certified with Coupa, Ariba, Oracle iProcurement and Fusion, SAP Ariba, Workday Procurement, JAGGAER, and Basware. Integrations deliver VCA issuance from the AP platform when invoices are approved, then auto-reconcile when payment settles.

How are rebates calculated and paid?

Rebates calculate on net billed spend (excluding refunds, adjustments, cash advances) by tier on the program anniversary. Quarterly progress rebates are paid at the base tier; the true-up to actual tier is settled at year-end. Rebates are paid by ACH credit or applied to the company master account.

What's the implementation effort on my side?

A mid-market Purchasing program (up to \$10M annual spend) typically requires 20–30% of a Treasury Analyst's time for 3 months. Key client-side work: AP-data extraction for supplier analysis, policy alignment, IT engagement for AP-platform integration, and endorsing the Cumulus Supplier Enablement outreach.

DISCLOSURES & REGULATORY NOTICES

Important disclosures

§ Cumulus Purchasing Cards are Visa® Purchasing cards issued by Cumulus Bank, N.A. pursuant to license from Visa U.S.A. Inc. under the Commercial Card Program Agreement. Cards are commercial credit and are not subject to consumer lending laws or Regulation Z.

§ Level-3 data capture depends on supplier capability. Cumulus provides the Supplier Enablement program to coach suppliers on Level-3 submission; however, supplier submission of line-item, tax, shipping, and customer-code data cannot be guaranteed by Cumulus.

§ Rebate tiers depend on annual billed spend, Days Sales Outstanding (DSO) from statement close, Level-3 data capture rate, and virtual-card penetration. Rebates are paid quarterly in arrears and are reconciled on the program's anniversary.

§ Payment terms are set in the Commercial Card Program Agreement. Default program is 25-day statement with net-5 payment, resulting in approximately 30-day float. Extended-pay programs up to 45 days are available with credit approval.

ENGAGE A SPECIALIST

Connect with a Cumulus commercial banker

A Commercial Relationship Manager will assess your business's banking, credit, and treasury needs, coordinate supporting specialists, and return a term sheet or proposal on an expedited timeline. Existing Cumulus clients should contact their dedicated Relationship Manager directly.
