

Retail Welcome Packet

A customer-friendly packet that introduces Cumulus Bank channels, account setup tasks, safety reminders, and early relationship next steps.

DOCUMENT TYPE	Onboarding packet
AUDIENCE	New retail customer
OWNER	Branch banker
CADENCE	At account opening

RELATIONSHIP FRAME

Customer context

Use this packet when a new retail customer opens a checking, savings, or card relationship and needs a clean post-opening checklist.

Retail Welcome Packet is designed for new retail customer use during the at account opening motion. The document should orient the owner, clarify the current relationship frame, and convert scattered signals into a practical plan that can be reviewed before customer contact.

The core content emphasizes setup checklist, service expectations, risk reminders. These areas are intentionally operational: they help the branch banker understand what is known, what still needs validation, and which follow-up steps should be assigned before the relationship moves forward.

The document is not an automated decision record. It is a generated working draft that should be checked against the system of record, then refined by the banker, advisor, service specialist, or implementation owner who is accountable for the relationship.

Working posture Use this as a content-heavy planning document. It is meant to collect context, evidence, actions, and controls in one place before the owner decides what should become customer-facing language.

Field	Value
Primary relationship	Checking plus digital banking enrollment
Delivery moment	First appointment or same-day follow-up
Suggested channel	Secure message plus printed handout
Next milestone	First direct deposit, debit activation, and profile completion

WHAT THIS PRODUCES

Document highlights

Setup checklist Clear tasks for online banking, debit card controls, alerts, and statement preferences.	Service expectations Explains how the customer can reach branch, phone, and digital support.
Risk reminders Includes demo-safe fraud, identity, and account-monitoring reminders.	Relationship bridge Creates a reason for the banker to schedule a 30-day check-in.

Discussion guide

Topic	Why it matters	Review prompt
Setup checklist	Clear tasks for online banking, debit card controls, alerts, and statement preferences.	Confirm whether this should be included in the next customer or team conversation.
Service expectations	Explains how the customer can reach branch, phone, and digital support.	Confirm whether this should be included in the next customer or team conversation.
Risk reminders	Includes demo-safe fraud, identity, and account-monitoring reminders.	Confirm whether this should be included in the next customer or team conversation.
Relationship bridge	Creates a reason for the banker to schedule a 30-day check-in.	Confirm whether this should be included in the next customer or team conversation.

GENERATED SCORECARD

Readiness signals

How to interpret these signals

Signal	Posture	Interpretation
Profile readiness (72%)	Developing signal	contact and preference gaps remain. Useful for planning and prioritization; review supporting evidence before acting.
Digital adoption (64%)	Developing signal	enrollment started. Useful for planning and prioritization; review supporting evidence before acting.
Follow-up urgency (58%)	Developing signal	30-day call recommended. Useful for planning and prioritization; review supporting evidence before acting.

SOURCE REVIEW

Evidence model

Source	Signals
CRM	Account, Contact, consent, and communication preference fields
Core banking	New account, card, and enrollment status signals
Data Cloud	Digital onboarding and engagement events

Source	Expected content	Validation step
CRM	Account, Contact, consent, and communication preference fields	Validate freshness, owner, and field-level trust before reuse.
Core banking	New account, card, and enrollment status signals	Validate freshness, owner, and field-level trust before reuse.
Data Cloud	Digital onboarding and engagement events	Validate freshness, owner, and field-level trust before reuse.
Human review	Branch banker	Required before customer-facing delivery or CRM task creation.

RECOMMENDED WORKFLOW

Action plan

Timing	Action	Owner
Today	Confirm contact preferences and digital banking enrollment.	Banker
Next 7 days	Validate debit card receipt, alerts, and first login.	Service team
Next 30 days	Review direct deposit, early balance pattern, and product fit.	Banker

Operating notes

Today: Banker should confirm contact preferences and digital banking enrollment. The owner should record the outcome in the CRM activity timeline and identify any dependency that blocks the next step.

Next 7 days: Service team should validate debit card receipt, alerts, and first login. The owner should record the outcome in the CRM activity timeline and identify any dependency that blocks the next step.

Next 30 days: Banker should review direct deposit, early balance pattern, and product fit. The owner should record the outcome in the CRM activity timeline and identify any dependency that blocks the next step.

REVIEW BEFORE USE

Controls

- Do not include full account numbers, tax identifiers, or authentication secrets.
- Confirm consent and contact preference before sending any customer-facing version.
- Treat generated text as banker draft copy until reviewed.

Review checklist

Check	Required review
Data freshness	Confirm the data was refreshed recently enough for the customer workflow.
Sensitive information	Mask identifiers, credentials, account numbers, and private notes.
Human approval	Route customer-facing excerpts through the owner and approved template process.
CRM update	Log decisions, declined actions, follow-up tasks, and unresolved questions.

DEMO GUARDRAILS

Disclosures and controls

This document is generated for the JDO demo environment using fictitious Cumulus Bank data. Information is illustrative, may be synthesized, and must be verified before any real customer communication. No credit, investment, insurance, tax, legal, or fiduciary recommendation is made by this generated document. Demo asset. Fictitious customer data. Not for production customer communications.

DOCUMENT METADATA

Appendix

Field	Value
Document code	CD-RET-WELCOME
Document type	Onboarding packet
Audience	New retail customer
Owner role	Branch banker
Cadence	At account opening
Segment	Retail
Generated output	documents/01_Onboarding/Cumulus_Retail_Welcome_Packet.pdf

This appendix exists so generated PDFs can be checked back to their source spec, folder, owner model, and usage cadence during demos or document QA.

Coordinate the next customer conversation

Use this document as a banker-ready brief for relationship planning, service follow-up, and customer education inside the Cumulus demo org.
